

# Family First Readiness Assessment, Planning and Initial Implementation: Chapin Hall Capacity, Planning Framework and Suite of Tools

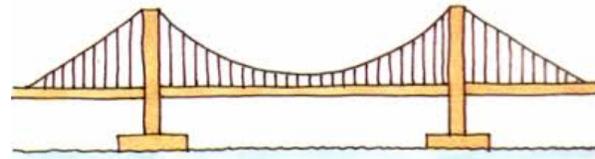

# Chapin Hall Capacity & Expertise

# Bridging the Gap Between What We Know and What We Do

---

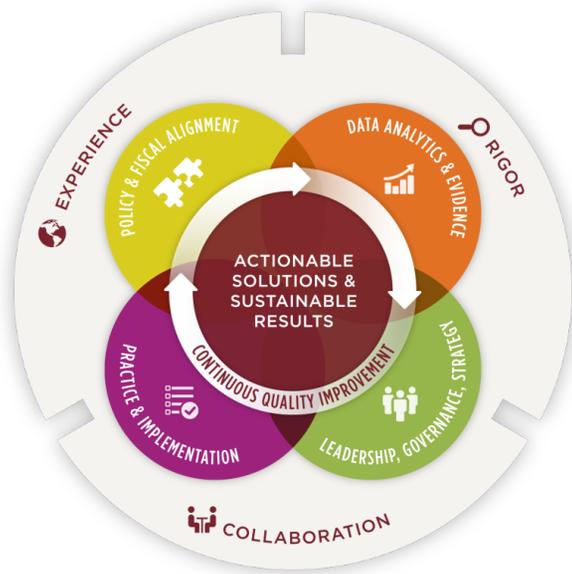

*Chapin Hall at the University of Chicago is a research and policy center, focused on a mission of improving the well-being of children and youth, families, and their communities.*

*Chapin Hall provides public and private decision-makers with rigorous data analysis and achievable solutions to support them in improving the lives of society's most vulnerable children, youth and families.*

# Actionable Solutions, Sustainable Results, Capacity Built via Intensive On-the-Ground Teams and Partnership

**Building capacity across domains creates readiness to leverage current & future system improvement and transformation opportunities**

*Jurisdictions build new capacity to:*

- Use data and evidence in decision-making
- Lead toward a strategic direction and priority outcomes
- Build structures that support strong governance and outcome attainment
- Implement strategies to meet specific needs of children and families
- Align policies and finances to gain traction and momentum
- Monitor progress and continually improve

*Impact*

- Jurisdictions have new capacity to function as *learning organizations*, ready to respond to Family First Prevention Services Act, CCWIS, new evidence and other opportunities

# Capacity-Building Philosophy and Approach

---

- Build system change capacity in leaders, managers, and with stakeholders
- Create learning organizations able to leverage new opportunities and address current and future challenges
- Co-design and develop, facilitate, guide and reinforce to ensure capacity built is sustainable
- Promote acquisition of new skills and competencies across the system

*Celebrate growing independence as a measure of success*

## Applying Lessons Learned from Waiver Implementation: Leveraging Opportunities for System Transformation

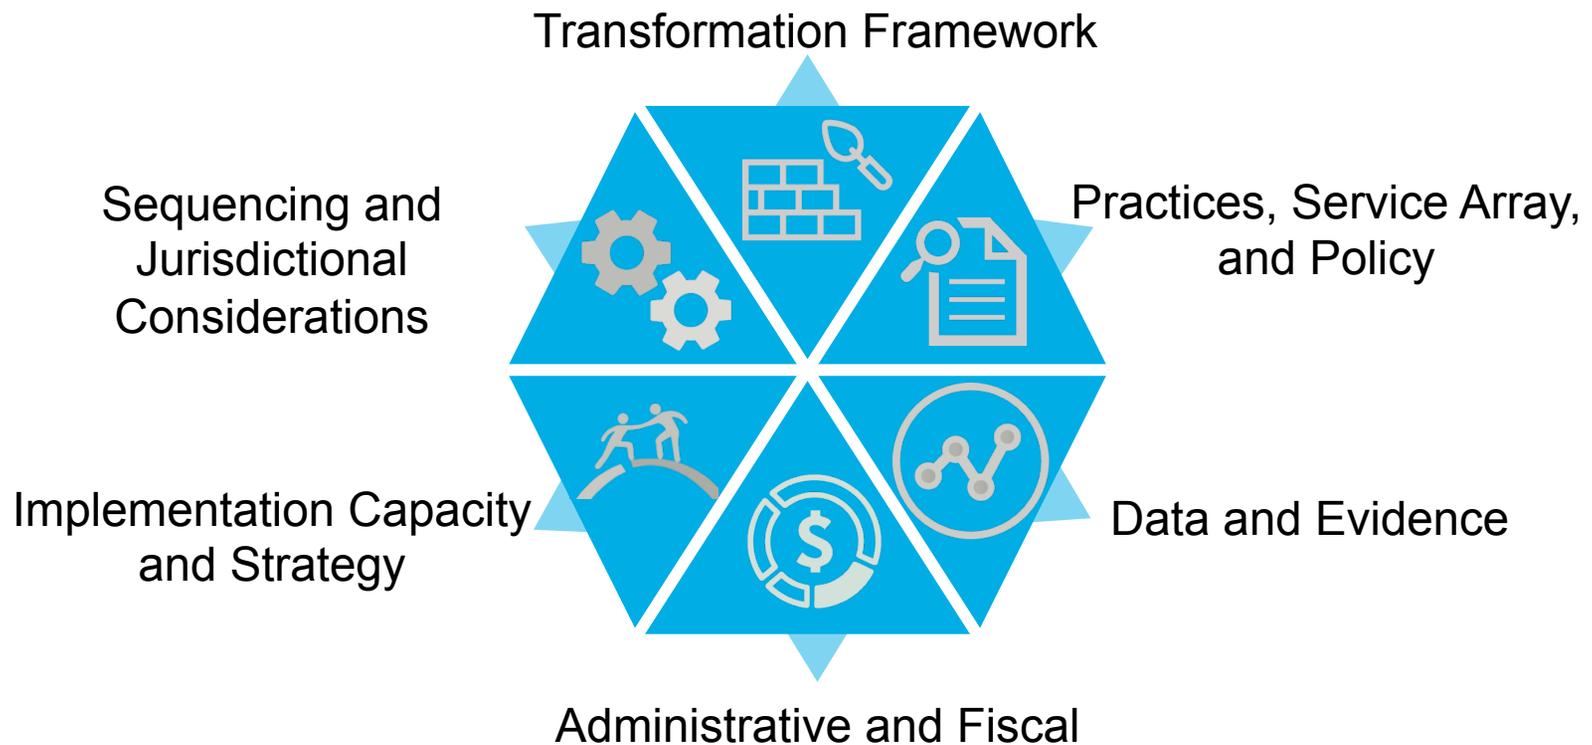

# Family First Readiness Assessment, Planning and Initial Implementation Framework

---

# Family First: Readiness Assessment, Planning and Capacity Building for Implementation

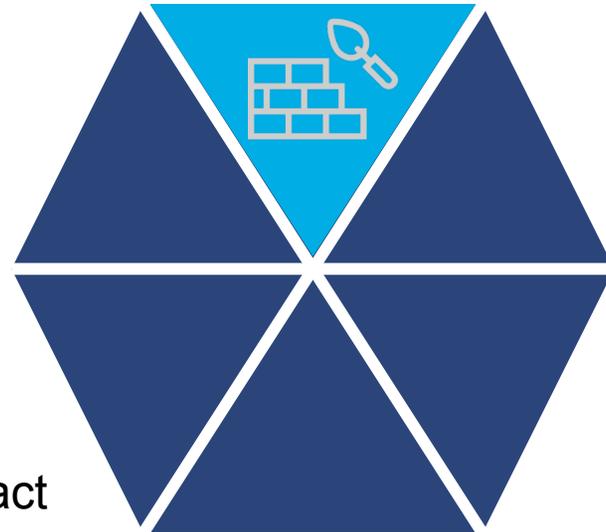

# Domain – Transformation Framework

---

- Transformation vision\*\*\*
- Strategic direction
- Priority outcomes
- Target populations
- Theory of change

\*\*\*Leverage opportunities, reduce barriers, cultivate innovation and achieve collective impact with stakeholders at the table

# Domain - Practices, Service Array and Policy

---

- Practice Model
- Casework and supervisory practices
- Child and family assessment
- Case and service planning
- Service array - EBPs and supportive
- State/agency policies, regulations & rules
- Alignment and leverage of policies external to Family First

# Domain - Data and Evidence

---

- Data collection & analysis
- Federal reporting
- Information systems (CCWIS)
- Evaluation
- Continuous quality improvement (CQI)

# Domain - Administrative and Fiscal

---

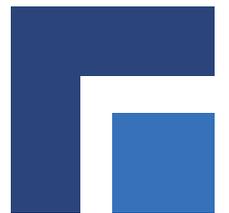

- Contracting
- Budgeting & appropriation requests
- Federal plans & reporting
- Accounting & claiming systems

# Domain – Implementation Capacity and Strategy

---

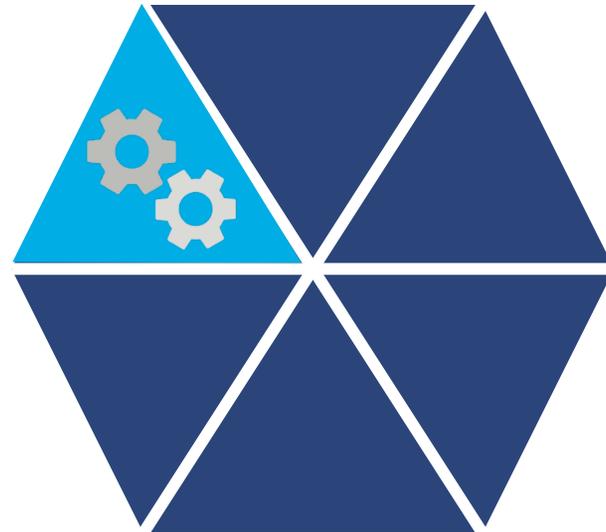

- Implementation structure and processes
- Workforce capacity and alignment
- Training and coaching
- Stakeholder analysis, engagement, and partnership
- Communications

# Domain - Sequencing and Jurisdictional Considerations

---

- Sequencing and Interdependencies
  - Legislative & budgeting timelines
- Unique Jurisdictional Factors
  - Leverage points (e.g., legislation, political changes, stakeholders)
  - Alignment opportunities
    - (e.g., PIP, Reasonable Efforts requirements, CIP)
  - Challenges and Barriers
    - Historical challenges related to outcome attainment, implementation, and overall effectiveness

# Suite of Assessment and Planning Tools

---

# Suite of Tools for Readiness Assessment, Planning & Implementation

---

## Overall Assessment and Planning Guide

- Explains the **overall approach** to assessment and planning for Family First.
- Clarifies how the **tools collectively support data-informed decision-making and a comprehensive implementation plan.**
- Recommends a **governance structure** (new or leveraged) to conduct assessment and planning activities.

## Readiness Assessments and Capture Tools

- **Leadership assessment and capture tool** to articulate the transformation framework, identify partners, and determine sequencing.
- **Provision assessment and capture tool** to assess readiness for implementation per provision.
- **Provider readiness assessment/survey** to assess current EBP capacity, and readiness to implement prevention EBPs, congregate care, and other provisions.

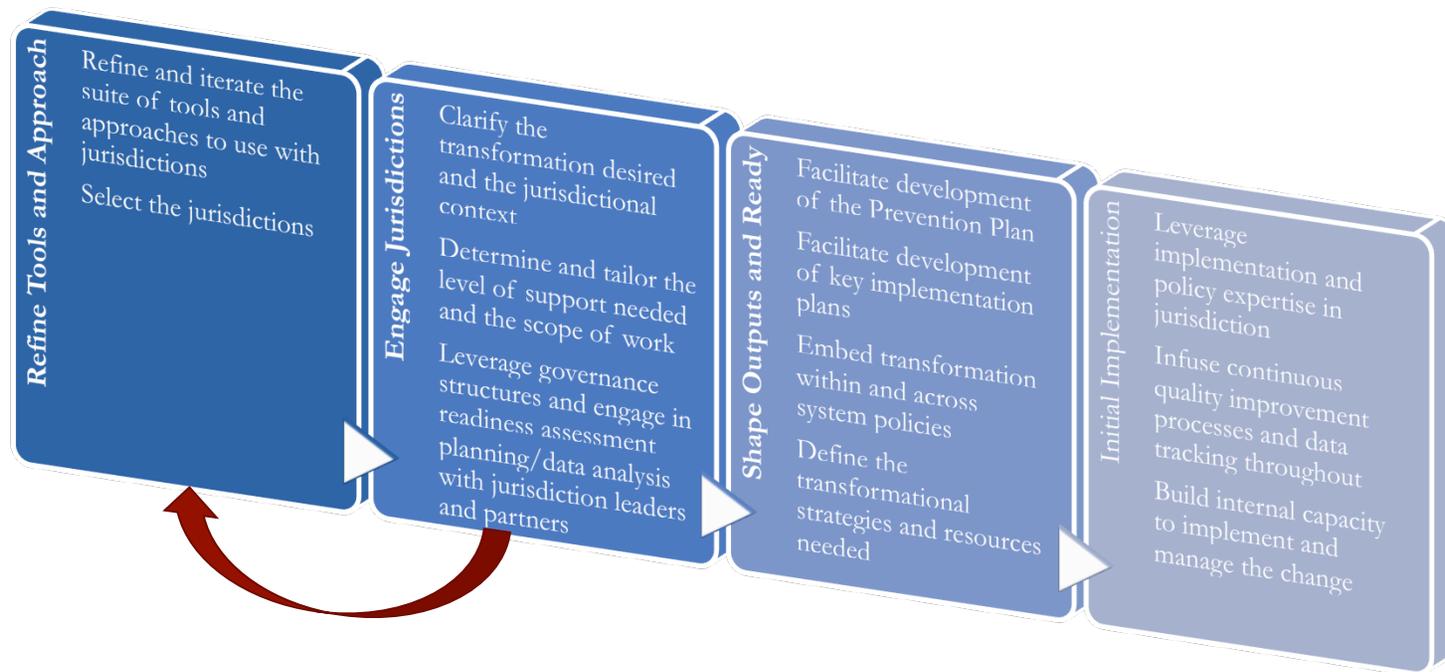

## Action and Implementation Plan Templates

- **Provision action plan template** based on the results of the readiness assessments, identifies the action items, responsible parties and timeline.
- **Integrated implementation plan template** identifies the implementation tasks by domain and component.

# Family First Readiness Assessment, Planning and Initial Implementation: Putting the Approach into Action

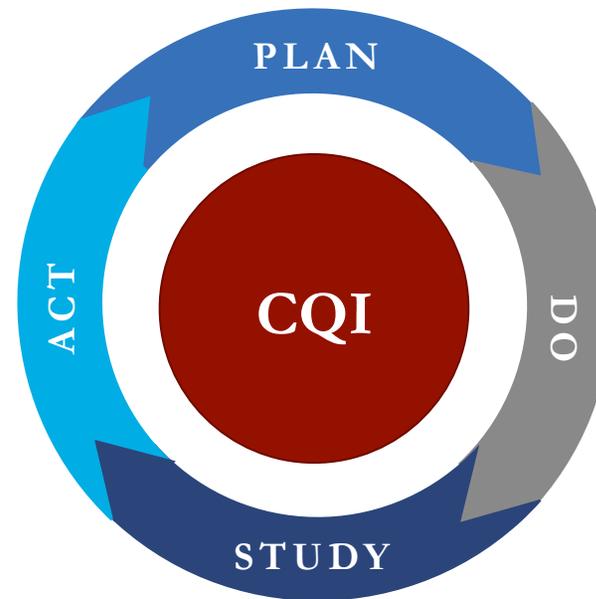

---

# Readiness Assessment, Planning and Capacity Building for Implementation

---

- Maximize and leverage the provisions in Family First to promote system transformation.
- Be methodical in planning to identify opportunities to embed the transformation throughout the system.
- Clarify direction and strategy, and align resources to be successful.
- Develop clear and integrated implementation plans to ensure comprehensive approach and effective tracking and evaluation.
- Incorporate CQI and capacity building to become a learning system.
- Be well prepared and ready to implement!

# Data Analytics to Support Family First Implementation

---

## Chapin Hall Capacity: Array of Data Analytics for Family First Provisions

20

Examples:	Preventive	Congregate Care
<b>Define &amp; understand the population</b>	<ul style="list-style-type: none"> <li>Operationalize candidacy definitions with administrative data</li> <li>Cost savings projections</li> <li>Geospatial analyses of population relative to resources</li> <li>Latent class analysis to identify subgroups and describe needs</li> <li>Predictive models to understand risk levels risk of re-entry among reunified youth</li> </ul>	<ul style="list-style-type: none"> <li>Predictive analytics to identify risk factors of congregate care placements</li> <li>Descriptive analyses of the service needs of the population at risk of congregate care placement</li> </ul>
<b>Calibrate &amp; enhance the service array</b>	<ul style="list-style-type: none"> <li>Identify evidence-based models and their geographic alignment with population needs</li> <li>Build service matching algorithms to facilitate referrals</li> <li>Assess workforce capacity for service planning and case management</li> </ul>	<ul style="list-style-type: none"> <li>Availability of therapeutic foster homes</li> <li>Algorithmic approaches to placement decision-making</li> <li>Strategies to equitably monitor quality</li> </ul>
